Don,

We are interested in working with EPA and the NPS during the permit application review process and will set up a conference call in the near future.

Patrick,

I don't know if the Park Service has had a chance to review it, but Don Shepherd is aware that the information is on our web site.

We are interested in any input EPA or the Park Service is able to provide. I understand that a call is being set up in the near future to discuss the project.

Hi David,

I had our modelers take a look at the Davis Refinery application and they don't have any specific concerns at this point. They did want to know if the National Park Service has had

a chance to review the application yet though, with the project being so close to the park.  
Are you aware of whether or not the NPS has looked it over?

Thanks,

Patrick Wauters
